

## TA Meeting #4

12/5/13

Attendance:

### Progress report

- Got working version of reviews
- Figured out/split remaining work

### Agenda

- Advice on:
  - How to implement search
    - Currently, we have one search bar that searches everything
    - We want to allow people to filter & search on
      - department
      - title
      - description
      - professor
      - skills
    - Will have checkboxes that call queries in model - reasonable?
  - Uploading resumes to S3
    - Is Paperclip gem the way to go?
  - Email validation
    - Enough to check email domain?
    - Best way to send confirmation emails?
- Feedback on our code critique of team nextdoor
- Feedback on updated design doc
